STYLISH CONSERVATORIES WITH AN EXTRA TOUCH OF ELEGANCE ON TOP

The orangery-style conservatory is the latest look for homeowners.

With its traditional Victorian or Edwardian lines and all that extra light, it's easy to see why.

But what if they want all the country house appeal of a genuine orangery, but their budget won't stretch to the real thing?

That's easy. Offer them our Lusso conservatory roof. An internal pelmet and rooflight system that gives you everything you need to finish off their new conservatory, or refresh the look of an existing one, in true style.

A modern take on traditional roof design

With Lusso, you can create the look of an orangery. But without the extra building work or added cost of making sure the conservatory can support a 'fuller' roof.

That's because Lusso looks like the real thing, right down to its deep perimeter, lantern roof and period details. But it's a lightweight, prefabricated system that's quick and easy to install.

WHY CHOOSE A LUSO CONSERVATORY ROOF?

Easy to install

Fast, accurate installation and construction

Low material and labour costs

Better draft proofing than conventional roofs

Pitch range 15-35 degrees

Cosy internal living environment

More natural light than lantern roofs

10-year manufacturer product guarantee

More sales opportunities

Lusso lets you match your conservatories to a wider range of house styles with colour-matched trims and accessories, a choice of lighting kits and rooflight pitches from 15° to 35°. More choice for your customers. More business for you.

Quick and easy to install

Lusso's clever box-section pelmet means there's minimal need for plastering required. Just clip interior trim and cladding direct to the aluminium frame. Faster, cleaner and less hassle than traditional orangeries.

HELPING YOUR CUSTOMERS GET THE CONSERVATORY ROOF THEY WANT

Although it's most common on Edwardian style conservatories, the double hipped lantern roof looks great on our Victorian and P-shaped designs too. So now you've got even more options to offer householders looking to add extra style and space to their home.

Because of Lusso's lightweight frame and fast installation, it's just as easy to retrofit an orangery style internal pelmet to an existing conservatory.

But whether you've designed Lusso in from the start or using it to improve the look of a conservatory that's beginning to show its age, the benefit for your customers is the same:

A genuine extra room in the house they can use the whole year round. Loads more natural daylight from a clear glass lantern roof. And a relaxing atmosphere created by concealed LED pelmet lighting they can enjoy into the evening.

Putting it all together

Like every Eurocell system, Lusso is designed to look good and perform even better. But just as important, it's designed so you can install a quality finished product quickly, easily and with minimum cost.

There's an 'intelligently-designed' box section pelmet that houses up or down LED lighting in stainless steel, aluminium, chrome or black.

All the interior trim and cladding clips neatly onto the aluminium frame, giving a clean look with minimal finishing requirements. And a thermal break in the ring beam protects against heat loss so you don't have to think about extra insulation.

Highline Gutter

Create the look of an orangery style conservatory with our quality highline gutter and decorative corner castings.

Internal Pelmet

Let the homeowner enjoy more natural daylight than from a clear glass lantern roof, plus a relaxing atmosphere created by concealed LED pelmet lighting in the evening.

AN EVEN WIDER CHOICE FOR
CONSERVATORY INSTALLERS

Lusso is just one in a wide range of Eurocell conservatory systems and designs.

All our conservatory frames, roofs, profiles, finials and finishes are compatible, so you don't have to look anywhere else to create exactly the conservatory your customers are looking for. Or for the help and advice you need to erect it with the minimum of hassle.

And because Eurocell conservatories are highly energy efficient, every job exceeds the latest energy-efficiency standards and every customer gets a room they can use, the whole year round.

Classic style

Our bespoke conservatory range covers classic and contemporary styles including Victorian, Edwardian, P-style and gable-ended. And now, with Lusso, orangery designs too.

Lusso in timeless white delivers classic style, with special interior colours available on request.

Guaranteed peace of mind

Whichever Eurocell conservatory roof system you choose, you will still receive our 10-year manufacturer guarantee, giving your customers peace of mind.

THE FULL ORANGERY EXPERIENCE WITH HIGHLINE GUTTER AND LARGE HOMELY PELMET

LUSSO INTERNAL PELMET

Let the homeowner enjoy more natural daylight than from a clear glass lantern roof, plus a relaxing atmosphere created by a deep pelmet dimension and concealed LED pelmet lighting in the evening.

LUSSO HIGHLINE GUTTER

Create the look of an orangery style conservatory with our quality highline gutter and decorative corner castings.

lusso LIGHT

SLIMMER PELMET FOR INCREASED INTERNAL LIGHT

The intelligently-designed continuous box-section around the roof avoids the needs for plastering and simply allows the trims and cladding (all perfectly colour-matched to the orangery-style roof) to be fitted to the aluminium fascia mounted on brackets. As well as avoiding installers having to factor in specialist trades to carry out plastering, this design significantly reduces the amount of time needed to complete the project.

With the ability to incorporate subtle lighting within the roof perimeter and a full range of perfectly colour-matched trims and accessories, it provides customers with plenty of scope for creating a lasting impression. Lusso is available to both bar length and kit customers.

Complementary products:

HD LED downlight kits are available (roof kit customers only). Fitting kits are stainless steel as standard, with aluminium, chrome and black colour options available on request.
